Moroney Says He and Sullivan Are Innocent as New-Born Babes.

The Five Chicago Identifications Either Erroneous or Fraudulent.

ISPECTAL TO THE EVENING WORLD. I CHICAGO, June 13. - The chain of evidence connecting John J. Moroney, the New York prisoner, with the murder of Dr. Cronin seems additionally strong in the light of today's knowledge.

HATFIELD'S FURTHER STATEMENT. Salesman Hatfield's identification of Mooney as the man who bought the furniture

JOHN J. MORONEY. [Made from a Sketch at the Tombs.] of the Carlson cottage, news of which THE EVENING WORLD got from this city yesterday,

has been made still more positive. DAFIS FOR MORONEY'S IDENTIFICATION. Hatfield gives further details of Moroney's dress, appearance and speech, which the poice say correspond exactly with their private reports from New York as to Moroney's per-

Hatfield picked out Moroney's picture from twelve photographs of different men, and he says to-day that he cannot be mistaken. The evidence connecting Moroney with Cronin's murder is, according to State's At-torney Longenecker, summarized as follows:

FIVE ACCUSERS OF MORONEY. . Salesman Hatfield, of Revill & Co., posi-ely identifies him as the man to whom he sold he furniture for the cottage in which Dr. Cronin was murdered.

2. Expressman Martensen, who carted the furniture to the scene of the murder, likewise identifies Moroney's picture from a number of others as the man who had the furniture moved.

moved.

3. Mrs. Conklin identifies Moroney's picture as that of the man who took Dr. Cronin away in a carriage the last day he was seen alive.

4. Luke Dillon has Moroney's signature in the register of McCoy's Hotel. The signature is W. L. Meiville, the name under which Moroney travelled in England, but Mr. Dillon says he will swear the handwriting is Moroney's.

5. The clerk of McCoy's Hotel identifies Moroney's picture as that of the man who registered as W. L. Melville.

WITNESSES COMING TO NEW YORK, The present intention of the State's Attor-ey is to send the above named persons to sew York to identify the prisoners there in yeardings.

extradition proceedings. GOV. FIFER'S REQUISITION. News comes from Springfield that Gov. Filer has issued to the representative of the State's Attorney requisitions upon the Governor of New York for the bodies of Moroney and McDonald.

SULLIVAN IN HIS CELL.

Alexander Sullivan has been removed to a cell in the County Jall immediately above that in which Louis Lings, the Anarchist, blew out his brains with a dynamite bomb.

The famous prisoner maintains a stoady and composed demeanor and has his usual appetite for food.

BANGUINE OF RELEASE. To friends who visit him he confidently predic s that Judge Tuley will decide in his favor on the habeas corpus writ, and that he will be a free man within twenty-hours. His law pariner, Mr. Windes, was with him this morning discussing the situation.

Judge Tuley amounces that he will give his decision in the habeas corpus proceedings at 10 o'clock to-morrow morning.

RUMORS OF MORE ARRESTS. Chief of Police Hubbard reached his office cher of Police Hubbard reached his omce at an universally early hour this morning and was in close conference with Detective Mirler and another detective who has had a great deal to do with the Cronin developments.

Luke Dillon saw the chief shortly afterwards. He would not say what truth there was in the rumors. "Wait until Moroney and McDonald get here," was his parting injunction.

TAKEN UP BY THE GRAND JURY. To-day the Grand Jury, acting under Judge hepard's instructions, began what promises to be a notable investigation of the Cronin

The jury has been specially gathered and includes the names of at least a score of prominent Chicago business men.

Much comment is created by the fact that there are only two Irishment in the panel. They are W. J. Quan and W. J. O'Neill. They are of unquestioned standing and high reputation.

The organization of the Grand Jury having been completed yesterday, they entered upon the actual business of the case immediately upon assembling at 11 o'clock.

MOBONEY IN DR. CHONIN'S REPORT The fact is now revived here that the name of Moreney, of New York, was linked with those of other friends of Alexander Sudivan in Dr. Cronin's report to the United Brother-hood

Dr. Cron'n in his minth finding charges that Moroney was forced into the Pirisburg Convention in the place of a rightful delegate

from New York. Dr. Cronin's arraignment on this count was as follows:

Ninth—That Michael Boland and D. C. Feely, the former by act and the latter by assent, are guilty of attempting to pack the Pittsburg Convention by, first, excluding the delegate from the Pacific coast; second, excluding McLaughlin, the delegate from Dakoto; third, excluding O'Sullivan and Delancy, the rightful delegates from New York; fourth, almitting the Rev. Pr. Betts and John J. Moroney from the bogus district; fifth, admitting lolead and Millow, illegal delegates from New York; sixth, admitting proxies from Iowa. Brooklyn and Ininos; seventh, sitting as delegates themselves in direct violation of the constitution.

TOM DESMOND IS WANTED.

One of Luke Dillon's intended prisoners seems to have escaped. He is Tom Desmond, the Pacific coast Nationalist, and Dillon expected to have him arrested for the Cronin murder at the same time as were Moroney and McDonald.

It is alleged that Desmond is the man who engaged a room in McCoy's hotel here the day before Moroney arrived and that they were companions.

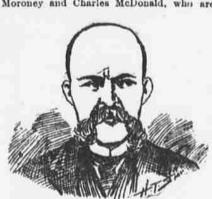

were companions.

Desmond, it is stated, was in New York on Tuesday, but sluded the detectives, who were just about to arrest him.

AN ENGLISH IDENTIFICATION.

"It is just possible that this may have been the same sort of an identification as they have in England when they wish to punish an Irishman. They stand him up in line with a number of policemen who all wear the same kind of trousers, and when the witness comes out they look along the line until they come to an odd suit, and the wearer is identified.

C. B. Clark, of Altoona, has turned over the proof-sheets of his recently compiled Johnstown directory, and with its aid the canvassing corps will be enabled soon to determine very closely how great was the loss of life and make a nearly complete list of the dead.

This will aid much in the reduction of litigations, though by the laws of the State death is assumed after an absence of five years under circumstances indicating death.

B. F. Kellar's family has made a thorough cauvass on its own account, and it has been definitely ascertained that of fifty-eight relatives near and distant fifty were drowned.

Gov. A Directory of the Living and Dead in Sea Fox and Grayling Once More Try John Moran Kidnapped and Sold to Conclusions.

> SANDY HOOK, N. J., June 13. An EVENING Worth reporter stood on the beach here this morning and took observation on the weather. The wind was from the west and very light, and the haze that dimmed the green shores of Staten Island and New Jersey seemed to point out the fact that to-day would not be very propitions for yacht racing.

While he was sorrowfully noting all these things an old weather-beaten salt came ambling down the beach. Old salts are popularly supposed to be oracles where the state of the weather is concerned.

and the reporter asked: "Well, pop, how about having some wind to-day for the New York yacht race?"
The old salt removed his short clay pips from his mouth and slowly replied, pointing to the

The old sait removed his short clay pipe from his mouth and slowly replied, pointing to the west:

"Do you see them as little white souds over there? Well them's wind, and don't make any mistake. Them air yachting fellers will have plenty of work before the day sover.

This prediction was cheering, to say the least for it would be a pity if the weather should spoil the firest yacht race of the season. Undoubtedly the firest yacht race of the season. Undoubtedly the firest yacht club regatta sailed out of the harbor to-day. Nine classes were started in the New York Yacht Club regatta sailed out of the harbor to-day. Nine classes were started, and in each it was a fight from start to finish. First in importance comes the third-class sloops, in which the Titanis, Shamrock, Katrina, Fannie, Gracie and Bedouin started.

This race undoubtedly has a b-aring on the international race this Fall, now that the Volunter is to be sold and will probably fall into the hands of some Englishman.

So a seventy-footer will have to be pitted against the Valkyrie, and the winning yacht in this class will stand a chance of being selected. Sea Fox and Grayling are fighting it out again to-day, and the old battle-scarred Dauntless is contexting with the Palmer.

At 10 o'clock the wind was still light, but indications were that it would freshen and verify the old sait's predictions.

Long before that it would freshen and verify the old sait's predictions.

Long before the time set for the starting gun to be fired the yachts in the Bay Ridge anchorse could be seen spreading their causes ready for the contest, while hundreds of non-competing sail craft, steamboats and steam launches fitted in the waters of the bay, carrying thousands of sightseers.

It was a little after 9 o'clock when the big steam yacht Electra, the flagship of the fleet, passed down the bay and took up her position opposite Fort Hamilton and nearly a mile from this shore in a direct line from buoy 15, the starting point of the yachts.

Commodors Gerry and the Regatta Committee of the New York Yacht Club were on board.

The start was off buoy 15, in the lower bay, and course No. 1 is across an imaginary line drawn from the Electra, anchored to the east of buoy No. 15 and about two cables length from it, to buoy No. 10, near Southwest Spit, passing to the aouth and west of it; thence south of buoy No. 816 and north of buoy No. 5, off the point of Saidy Hook, to Sandy Hook Ligntship, turning from the north and east and returning over same course.

No. 2, for classes 6 and 7, is the same as course No. 1, sub-tituting Scotland Lightship for Sandy Hook Lightship.

The preparatory gun was fired at 11.14 o'clock and the racing fleet, with all sails set, stood off South Beach close to the shore ready to break over the line at the moment the signal gun was fired.

It was a grand spectacle as the craft approached the line in a bunch, with the two hig first-class schoolers, Dauntless and Palmer, a little astern of the fleet.

The little racers got to the fore first, and when the starting gun was fired, at 11.24 o'clock, the Liris, of the seventh class, sped over the line light.

The Katruna, of the third class sloops, crossed at 11, 25, 02 and the Bedouin of the same class, at 11, 27.

The Nymph, of the seventh class sloops, went over at 11, 32 sharp, the Dauntless and the Palmer being but a few yards shead of her.

Owing to the closeness of the yachts to each other there was great difficulty in taking the official time of each yacht with the exception of those above mentioned.

The Electra weighed anchor two or three minutes after the Nymph went over the line, and steamed rapidly after the flyers, with the Tangus, the police-boat Patrol, the new steamer Puritau the Irou Steamboat Sirius and many smaller steam and sail vessels, loaded with spectators following in her wake. The Mayflower was in the fleet of a hundred or more yachts outside of the racers.

The racers soon strong out until the Staten Island shore was nearly covered with white sails. First to be reconnized from Sandy Hook was the Sea Fox, going like a racehorse. Following her was the Grayling, who was gaining steadily on the black schooner.

Says the poor fellow in his letter:

We were eight days on the water and pretty well played out when we got here. Then to go to work in the hot sun eleven hours a day for 66 cents in American money broke my heart. I am actually starving. My contract was for \$35 a month and board, and Maggie this wife could draw the money in New York.

But we found out that were white slaves. I may never be able to get away from here, for I never could get money enough if I worked year in and year out. I am only three days from the hospital, but I go back again to-morrow. The Chagres fever is raging now and seven of our men have gone crazy from the effects of the heat, and I am one of the seven. If I am to die soon, let me die at home."

Kennedy, Toole, Snow and Blake, as has been related, escaped and returned to New York, famished, ragged, and broken in health. Their story has been told in True Evening World and John Moran's letter corroborates it.

A World reporter visited the District-Attorney's office yesterday and laid the case before Col. Fellows's assistant, John D. Lindsay, Mrs. Moran is so afraid of "Liverpool" Jack that she could not be induced to swear out a warrant for his arrest, and Mr. Lindsay did it himself before Recorder Smyth.

BYRNES AVENGED,

Frank Templeman Gets a Stiff Sentence from Judge Martine,

Three Years and Nine Months for That Little Conspiracy.

Lawyer Howe Gets a Temporary Stay Until Monday from Judge Andrews.

Frank Templeman, who attempted to destroy the reputation of Inspector Byrnes and District-Attorney Fellows by saying that they stood in with Wilkinson's Private Detective Agency to mulct the city out of sums of money in connection with the boodle trials, was sentenced to three years and nine, mouths in Sing Sing by Judge Martine, in Part III. of the Court of General Sessions,

this morning. Templeman was well dressed, and pre-served a cool demeanor while sentence was being pronounced upon him. His lawyers, Howe and Foster, were also

present. Mr. Howe moved for a new trial on the

Mr. Howe moved for a new trial on the ground that much illegal testimony was admitted on the trial, and that even so the charge made was not proven.

Judge Martine promptly denied the motion. Then Lawyer Foster tried to explain a story told about his client by a reporter, who said that Templeman had once been in the bogus divorce business.

Mr. Foster tried to clear up the matter, but did not succeed very satisfactorily.

did not succeed very satisfactorily.
When he had finished, Judge Martine, ad.

When he had finished, Judge Martine, addressing Templeman, said:
You were found guilty of a grave crime. You tried to defame and destroy the character of two upright officials in the community.
All the evidence showed you were guilty.
Out of your own mouth you convicted yourself, and I may say I think you puzzled yourself as well when giving your testimony.
I cannot conceive a more dastardly act than that of a man who for money will deliberately set out to ruin the career of two men who never did him any harm.
You come of a respectable family, and many people have been to see me on your behalf.
Add to that the jury's recommendation to mercy and I think I am dealing very leniently with you when I impose the sentence of three years and nine months in State's prison.
Templeman never moved a muscle. He turned and walked calmly back to the prisoner's pen in the court-room.

oner's pen in the court-room.

Inspector Byrnes, healthy and happy, had been a witness of the critice proceedings and did not leave until Templeman was sentenced. Lawyer Howe went before Judge Andrews, of the Supreme Court, at noon and got a temporary stay for fempleman until Mon-day, when cause is to be shown why it shall not be made permanent.

ONE HUNDRED HEADS OFF.

WHOLESALE DISMISSALS BY JERSEY CITT'S NEW BOARD OF WORKS.

One hundred and three heads fell in Jersey City's Department of Public Works this morn ing, with the new charter Street and Water

Commissioners as executioners. Two resolutions were passed providing for the dismissal of every employee at the Belleville pumping station, with the exception of Foreman Carroll and five men, who were retained as a guard against disorder among the new hands.

The list includes forty-three regular employees and sixty extra hands recently appointed by the old Board of Works.

The vacancies were partially filled and will be entirely wiped away at the next meeting of the Board.

POLE-CUTTING STOPPED.

COMMISSIONER GILROY SAYS HIS FUNDS ARE EXHAUSTED.

At a meeting of the Board of Electrical Control held in the Mayor's office to-day the Subway Construction Company was directed to put down a number of subways for telegraph and

telephone service. Resolutions requiring the construction of a number of electric-light subways were laid Commissioner of Public Works Gilroy, who was present, thought that the Subway Construction Company and the Department of Public Works may clash in the Bowery and in Proadway, south of Fourteenth street, both of which thoroughfares he proposes to repair in pursuance of the new \$1,000,000 a year repairing bill.

Mayor Grant insisted that these streets shall be torn up but once, and that some means should be devised to pave the streets and lay the conduits at the same time.

Commissioner Gilroy announced to the Board that its crusade against the poles and wires had reduced his fund for the removal of street incumbrances to that extent that the work much now be discontinued, or he will not have sufficient to pay the salary-list of the Bureau.

AT ST. ANTHONY'S SHRINE.

Miraculous Cures Reported Performed at Alleghany This Morning. ISPECIAL TO THE EVENING WORLD

Pirrssuno, June 13.—Father Mollinger's Church, Alleghauy, to-day resembles the pool of Bethesda when the angel troubled the waters. It is crowded with lame, halt, and blind from
New York, Philadelphia and other parts of the
country who have come to be healed at 84.

The church cannot hold the crowds of cripples, but lines of kneeling supplicants extend
all through the church-yard and into the street.
Several cures were performed this morning.
One cripple threw away her crutches at the
priest's bidding and walked. Others were materially helped.
This church has a widespread reputation for
miracles, and on St. Anthony's Day is always
